BY THE NUMBERS
Total graduate enrollment in Fall 2018 was 164 students.
The College produced 68 graduates in 2018 from the MSN, DNP, PhD, and graduate certificate programs.

LARGEST DOCTORAL COHORT
52 new doctoral students started in Fall 2018, the largest doctoral cohort in the College's history.
They are exceptionally well-prepared, boasting an average GPA of 3.62.

INNOVATIVE PARTNERSHIP
We utilize a collaborative model of education where PhD and DNP students are educated together, emphasizing the relationship between knowledge discovery, translational science, and evidence-based practice.

NEW DISTANCE EDUCATION FEE MODEL
A new fee model went into effect in Fall 2018, dramatically lowering the cost of attendance for out-of-state students. This enables our graduate programs to 'reach' outside our traditional service area to new markets.

CLINICAL EXCELLENCE
Clinical programs that require certification (CRNA, FNP, PMHNP, and PNP) boasted an average certification pass rate of 98.8% in 2017, well above the national average of 83.8%. FNP and PNP graduates had 100% first-time pass rates!

IMPLEMENTED NEW ADMISSION CYCLE
Applications for Fall 2019 are still open! We have implemented a multi-stage application process to ensure enrollment goals are achieved.

GRADUATE PROGRAMS ARE POISED FOR GROWTH!
