BY THE NUMBERS
Total graduate enrollment in Fall 2018 was 164 students.
The College produced 70 graduates in the academic year 2018-2019 from the MSN, DNP, PhD and graduate certificate programs.

LARGEST DOCTORAL COHORT
58 new doctoral students started in Fall 2019, the largest doctoral cohort in the College’s history.

INNOVATIVE PARTNERSHIP
We utilize a collaborative model of education where PhD and DNP students are educated together, emphasizing the relationship between knowledge discovery, translational science, and evidence-based practice.

NEW DISTANCE EDUCATION FEE MODEL
A new fee model went into effect in Fall 2018, dramatically lowering tuition costs for out-of-state students. This enables our graduate programs to ‘reach’ outside our traditional service area to new markets.

CLINICAL EXCELLENCE
Clinical programs that require certification (Nurse Anesthesia, FNP, PMHiNP, and PNP) boasted an average certification pass rate of 97.5% in 2018, well above the national average. FNP and PNP graduates had 100% first-time pass rates!

IMPLEMENTED NEW ADMISSION CYCLE
Starting in Fall 2019, the Graduate Programs Office implemented a multi-stage application process to ensure enrollment goals are achieved. The priority application deadline for the Fall is December 15.

GRADUATE PROGRAMS ARE POISED FOR GROWTH!
